

Resume for John Fairfull

I started my career in desktop support, working for Dell Computer Corporation and Banctec Service Corporation. Over the years, I found I had more interesting opportunities in web development. I learned to code websites in the early days of the Internet, around 1998 at 16 years of age. I used my skills to create various personal and business websites on my own or for people I knew. I delved into the world of professional web development in 2007 with my own company, Ingero, LLC. Today I am the lead developer and co-founder at my company Simplicity Solutions Group.

Skills

- Expert in the LAMP server environment and all its technologies
- Expert in building HTML5/AJAX/PHP “CRUD” applications with MySQL or JSON storage
- Expert in front end development: over five years of experience slicing up designs and coding in HTML, CSS and JavaScript
- Expert in Wordpress, MODx and Expression Engine
- Proficient in SEO and mobile web development (iPhone, iPad and Android)
- Proficient in e-commerce template development
- Proficient in coding HTML emails for Outlook, Mailchimp, Constant Contact, etc.
- Highly proficient and knowledgeable in cross platform compatibility
- Knowledgeable in maintaining classic ASP code and simple VBScript
- Knowledgeable in creating a custom branded Sharepoint 2010 website
- Knowledgeable in web design including front end UI and backend dashboard design

Honors, Awards and Credentials

- Member of the Gideon’s International, 2013
- Deacon of Jordan Baptist Church, 2011
- Award from the City of Palm Coast Florida for Excellent Service, Community Development Document Imaging, 2006
- Dell Certified System Expert, Associate Desktops Version 4.5, 2002
- Liberty Christian School Salutatorian, 2000
- Disney Dreamer’s and Doers Award, 1999
