Scope and Purpose

The following Market Feasibility Report will review the proposed development of a hotel project in Marceline, Missouri. At the time of this report the size of the proposed hotel would be approximately 40-50 guest rooms. The proposed site (site A) for the hotel is located at the intersection of US Hwy 5 and Old Airport Road in Marceline, Missouri. This site is an ideal location to provide the best visibility for travelers entering into the community from both major highways.

Growth Services Group, LLC (GSG) was contracted to provide a Market Feasibility Report for the Marceline, Missouri market area. This Market Study provides a demographic and economic overview of the subject area to determine the overall feasibility of a new Greenfield hotel development. The purpose of this Market Study is to estimate the perceived demand and to estimate financial performance of a new hotel in Marceline, Missouri.

GSG has analyzed market conditions, economic and demographic factors, and site conditions to determine their impact on the proposed project. GSG has utilized both primary and secondary data sources that are assumed to be correct to analyze the subject area's demand for additional rooms. Research also included local interviews with area representatives from a variety of public and private sector organizations. The Report includes primary data and input regarding the overall feasibility of the project today and analyzes the potential for future growth in demand in the subject area.

The GSG Market Feasibility Study Report addresses the estimated operating performance of the project and provides recommendations as to size and scope of the development. The Report provides owners, investors, operators and lenders with a snapshot of the overall feasibility of the project based on market conditions at the time of the survey and is for discussion purposes only. Future macroeconomic events affecting travel and the economy cannot be predicted and may impact the development and performance of this project. GSG makes no representations regarding the development or possible investments. Potential developers and investors should rely on their own due diligence when making investment decisions.

In addition estimated financial performance projections have been prepared based on current operating performance in the market area as determined through a competitive analysis and review of industry data. Occupancy, Average Daily Room Rate, and Sales Revenue projections for the hotel were based upon a detailed review of comparable sales, field research data, and surveys. Recommendations as to the property type, property size, services, and amenities were included. These projections and recommendations were based upon the market demand research for the proposed facility at the time and are included as a suggestion only.

This Market Study represents compiled data from the most up-to-date sources available to GSG at the time the report was completed and GSG cannot be held responsible for updates or changes to data that occurred after each data source was accessed.

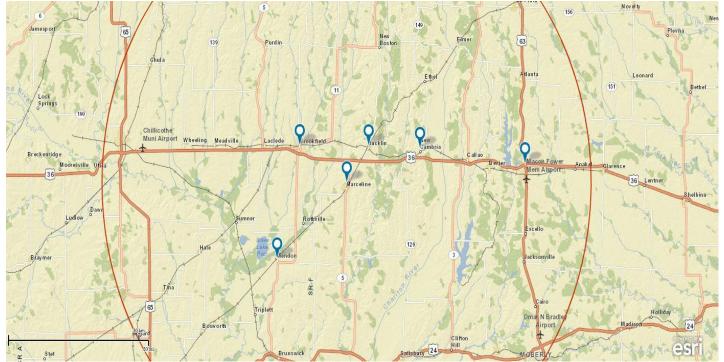

Area Analysis

Proposed Location

The general market for this hotel is Marceline, Missouri. However, this market is broader than just Marceline and includes areas within Linn County. Marceline, Mo is located in North Central Missouri, surrounded by several smaller communities within short driving distance. These cities offer a variety of local support for retail, dining, and community events. The nearest city with a population of 50,000+: Columbia, Mo (81.2 miles, pop. 115,276). The nearest city with a population 1,000,000+: Chicago, IL (392.36 miles, pop. 2,896,016).

Site Analysis

The proposed site is located at the intersection of Highway 5 and Old Airport Road. This site offers the highest traffic count traveling through the City of Marceline, a tourist destination that is the boyhood home of Walt Disney. It is located in the cities industrial park that is prepped and ready for build with all utilities.

Marceline has small but vibrant local retail district supported by the Marceline Chamber of Commerce. Local government and private businesses continue to make investment in the area to ensure diversity, stability and continued growth in the local economy.

Public Meetings were held on February 12th & 26th of 2015 at the Walsworth Community Center titled: "Community Planning for a United Vision". Approximately 35-45 members of the public attended each session that was hosted by the Green Hills Regional Planning Council. Attendees represented a broad range of the community to include high school students, business owners, industry professionals, farmers, and property owners.

With a population of 2,233, Marceline has unique issues and concerns not shared by larger metropolitan areas with a higher population and diverse demographics, such as crime, transportation, infrastructure, etc. Therefore, the Strategic Planning process for Marceline is more simplistic, addressing the top three concerns that were identified during the public meetings, through goals and objectives that can be accomplished within the next five years.

GOAL 1:

Enhancement and revitalization of the Downtown Business District with new, vibrant business activity

GOAL 2:

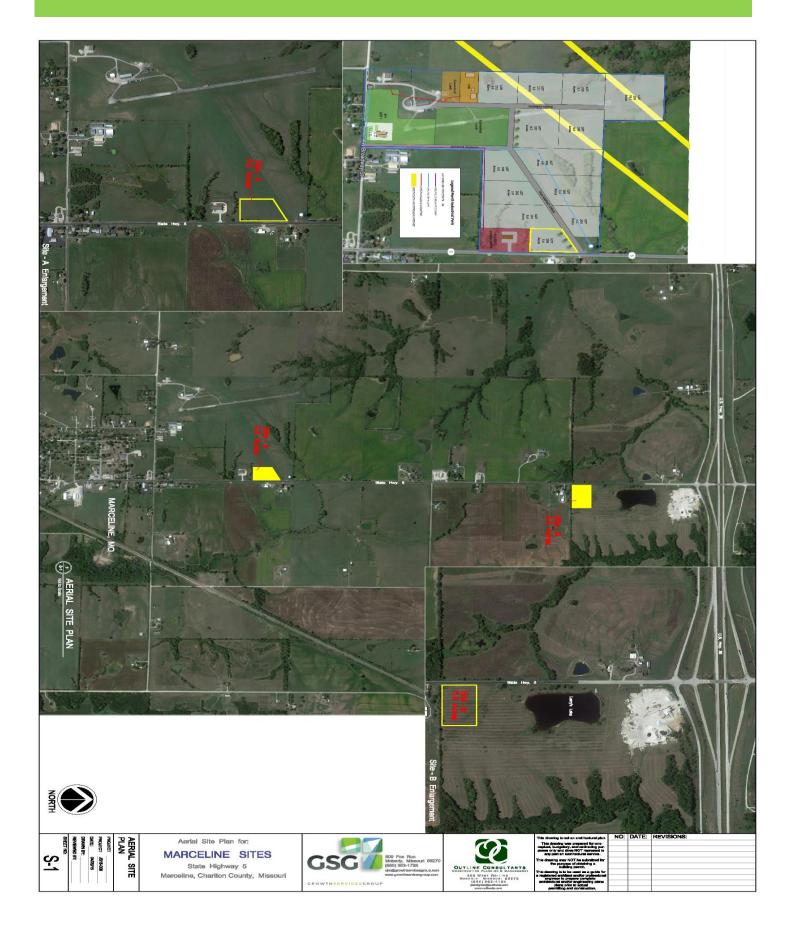

Increase employment opportunities and marketable job skills in the City and the Region

GOAL 3:

Promote the City, its events and amenities, and support local businesses through increased marketing and promotions

The City, its residents and visitors will benefit from the successful implementation of this Strategic Plan through job creation, business openings & expansions, increased tourism, and population increase.

Subject Site Evaluation

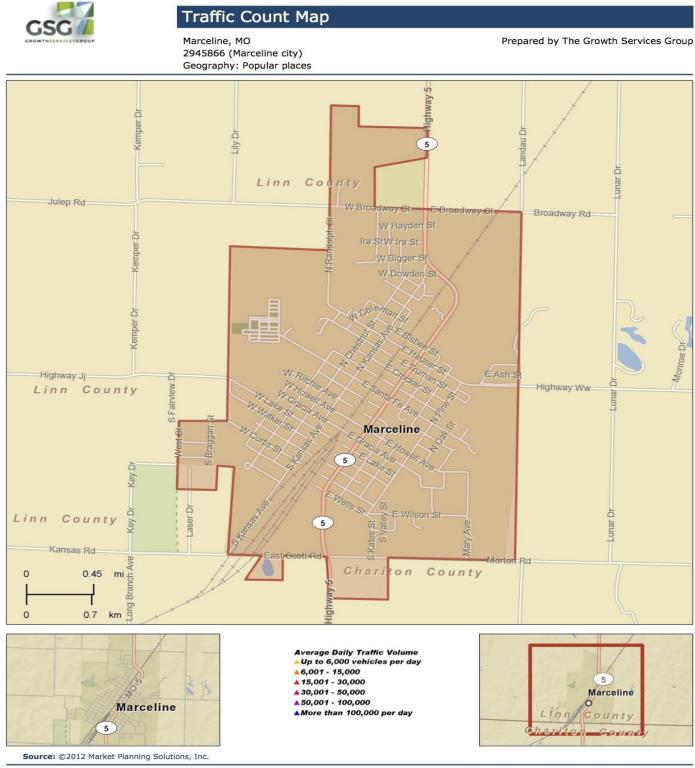

| Accessibility | Fair | Good | Excellent |
|---------------------------|------|------|-----------|
| Availability of Utilities | Fair | Good | Excellent |
| Land Cost | Fair | Good | Excellent |
| Site Prep | Fair | Good | Excellent |
| Visibility | Fair | Good | Excellent |
| Zoning | Fair | Good | Excellent |
| Overall Location Rating | Fair | Good | Excellent |

Site A is rated overall as good to excellent. This rating was determined due to maximum visibility for highway travelers, current business environment, and development potential for this proposed hotel.

HISTORY

The United States acquired the area of Missouri from France as part of the Louisiana Purchase in 1803. Missouri Territory was organized on June 4, 1812, from Louisiana Territory, and included all of the present-day states of Arkansas, Iowa, Kansas, Missouri, Nebraska, and Oklahoma and parts of Colorado. Minnesota, Montana, Nebraska, New Mexico, North Dakota, South Dakota, Texas, and Wyoming. The territory was reduced by conclusion of a treaty with Spain in 1819 that removed the portion of Texas that was in the territory and part of present- day Colorado, Kansas, and Wyoming. That same year, Missouri Territory was further reduced by the organization of Arkansas Territory. Missouri was admitted to the Union on March 2, 1821, as the 24th state from a small part of Missouri Territory. With the Platte Purchase of 1836, Missouri added territory in the northwest, west to the Missouri River, to assume generally the same boundary as the present state. (Missouri Territory-the portion not included in the state of Missouri-continued to exist as a separate area until the organization of Nebraska Territory in 1854, although reduced after a large part of the northern area was annexed to Michigan Territory in 1834. Some statutes refer to this Missouri Territory as Indian Country or Indian Territory.)

Data Note: Supply (retail sales) estimates sales to consumers by establishments. Sales to businesses are excluded. Demand (retail potential) estimates the expected amount spent by consumers at retail establishments. Supply and demand estimates are in current dollars. The Leakage/Surplus Factor presents a snapshot of retail opportunity. This is a measure of the relationship between supply and demand that ranges from +100 (total leakage) to -100 (total surplus). A positive value represents 'leakage' of retail opportunity outside the trade area. A negative value represents a surplus of retail alles, a market where customers are drawn in from outside the trade area. The Retail Gap represents the difference between Retail Potential and Retail Sales. Esri uses the North American Industry Classification System (NAICS) to classify businesses by their primary type of economic activity. Retail establishments are classified into 27 industry groups in the Retail Trade sector, as well as four industry groups within the Food Services & Drinking Establishments subsector. For more information on the Retail MarketPlace data, please view the methodology statement at http://www.esri.com/library/whitepapers/pdfs/esri-data-retail-marketplace.pdf.

North Central Missouri Regional Airport 4.5 Miles

28540 Jetway Road, P.O. Box 283 Brookfield, MO 64628 Phone: 1.660.258.7317 - Fax: 1.660.258.2151 info@ncmrairport.com Manager: Ted Stockwell 660.734.

The North Central Missouri Regional Airport is located between Marceline and Brookfield Missouri 4.5 miles from downtown Marceline. The Airport offers access for executive jet travel to and from the area.

Columbia Regional Airport 82 Miles

The Columbia Regional Airport is owned and operated by the City of Columbia, Missouri and is a division of the Columbia Public Works Department.

American Airlines offers round trips between Chicago O'Hare International Airport (ORD), Dallas/Fort Worth International Airport (DFW), and Columbia Regional Airport (COU). Jet service is provided on 50seat Embraer ERJ-145 regional jets.

Chicago O'Hare International Airport is one of America's best-connected airports and for many years was the busiest airport in the US. Over 70 million travelers a year pass through Chicago O'Hare International Airport which was voted "Best Airport in North America" in 2000 by international travelers surveyed in Business Travelers Magazine. In 2009, Chicago O'Hare received the Global Traveler Award for "Best Airport in North America" for the tenth consecutive year. O'Hare is located 20 miles northwest of downtown Chicago and provides superior connections to cities in the United States and countries around the world. When Chicago is your destination, you can take advantage of excellent transport links into Chicago by public transit such as CTA's Blue Line or Metra Rail, taxi service or shuttle service.

Dallas Fort Worth International Airport is the main hub for American Airlines. DFW offers nearly 1,900 flights per day and serves over 57 million travelers every year. Ranked as the third busiest airport in the world, DFW was rated as "Best Customer Service in North America" by an Airports Council International survey in 2006 and 2007. Dallas/Fort Worth provides non-stop service to 135 domestic and 38 international destinations worldwide.

American Eagle operates over 1,500 daily flights to nearly 160 cities throughout the United States, Canada, the Bahamas, Mexico and the Caribbean on behalf of American Airlines. American, American Eagle and American Connection serve 250 cities in 40 countries with, on average, more than 3,400 flights daily.

Kirksville Regional Airport 51 Miles

27161 David Hall Trail (Highway 63 South) Kirksville, MO 63501 Phone: (660) 665-5020 Fax: (660) 627-3815

They offer a full service FBO and make every effort to keep their fuel prices below regional markets. They also offer volume discounts on all aircraft fuel. Please call for details.

Located four miles south of Kirksville on the west side of US Highway 63, the Kirksville Regional Airport has been an important part of Kirksville and Adair County since the early 1930s when it was created as a backup military airport. Federal grants and fuel sales currently provide the funding for operations of the airport.

Flights to and from Kirksville

Cape Air provides three flights a day, seven days a week, from Kirksville to Lambert-St. Louis International Airport. Connect to the world with fast, affordable daily flights to St. Louis. Enjoy convenient baggage check-thru, free airport parking at the Kirksville Regional Airport and reach your destination in just over an hour.

Local Incentives

Generous incentives are available from local, state and federal governments to encourage new investment in the region. Incentives are based on capital investment, new jobs created and level of employee compensation. The following are incentive programs that may be available **FOR QUALIFYING PROJECTS.**

- I. Tax Relief
 - A. Property Tax Abatement Real Property
 - B. Property Tax Abatement Personal Property
 - C. Sales Tax/Use Tax Abatements

 - F. USDA/SBA Loan Guarantees
- IV. Infrastructure Assistance
 - A. Community Development Block Grants (CDBG)
 - B. Community Improvement District (CID)
 - C. Transportation Development District (TDD)
 - D. Capitalized Tax Abatement
 - E. Tax Increment Financing (TIF)
 - F. Amortized Utility Installation Costs

Supply and Demand Analysis

Missouri Travel Analysis

April 2015 Report (Data available as of 05/11/15)

The Missouri Division of Tourism research team analyzes a range of tourism research metrics in order to provide the Missouri travel industry with a monthly Missouri Travel Barometer. Updated monthly, the barometer shows key travel indicators that - at a glance - illustrate various measurements that affect Missouri's tourism industry and are indicators of its health.

Lodging Statistics: 2015 Calendar Year to Date through March

According to Smith Travel Research, Missouri's statewide lodging demand, occupancy and revenue have shown positive growth compared to the same time period last year. When compared to our surrounding, competitive states, Missouri has shown stronger growth in Occupancy and Demand while other states are showing stronger growth in ADR and RevPAR.

Missouri Lodging:

Demand up 4.8% -- Occupancy up 4.1% -- ADR up 4.6% -- RevPAR up 8.8%

SIC Tourism business sales and tax collections: 2015 Calendar Year to Date through February

- For FY14, a 4.9% (\$539.3 million) sales revenue increase is indicated by preliminary tourism 17 SIC • codes reports
- In CY14, a 5.2% increase (\$587.0 million) is indicated from preliminary reports on 17 SICs for Jan-٠ Dec
- For CYTD15, a 7.9% (\$128.6 million) sales revenue increase is indicated by preliminary reports on 17 ٠ SICs for Jan-Feb

Responses to MDT advertising (requests for travel guide via phone, website, email, etc. or sign up for a newsletter that is emailed based on travel interests): 2015 Calendar Year to Date through April

- 60,190 responses for 2015 YTD an increase of 92.1% •
- For the month of April compared to last April, there was a 151% increase (the bulk of this growth was RSL responses)

nSight-Searches and Bookings on third-party travel websites

- Conversion for travel (Booking) to Missouri across third-party sites was up 51.2% YOY for April ٠
- Bookings from Atlanta were up 45.2%, Chicago up 41.5%. Denver up 69.6%, Seattle up 38.2% by YOY comparisons for April
- Volume for third-party travel site searches for May 1 June 29 shows 10.55 million searches for Missouri

About Marceline

Late in the 19th century, the Atchison, Topeka and Santa Fe Railway decided to take action to build a onecompany line connecting Chicago to Kansas City and on to the west coast. The 351 mile section between Chicago and Kansas City was begun on January 24, 1887. Traffic began on the line in the spring of 1888.

Hiram Long helped secure land for the railroad-owned Santa Fe Town and Land Company. C.A. Sias then mapped out the town; one of many created along the line at regular intervals for the purposes of refueling, crew changes and water.

Marceline's name is most frequently said to come from the name of the wife of a director on the railroad's board, Marcelina. Two other similar claims have been circulated. One comes from the Santa Fe records which attribute the name to the daughter of C.A. Sias; the other comes in recent years from descendants of Marceline Siva don, one of the first residents and property owners of the town.

Regardless of the source of the name, the City of Marceline was incorporated on March 6, 1888. Businesses began, churches were built and plans for a school were all part of that same year. A civic improvement campaign which started in 1898 with Mayor Walter Cash included the Santa Fe donating 10 lots for a park. By 1902, Ripley Square was a part of Marceline.

Fires were a serious threat in the early years of the city. Until 1900, there was no organized fire department, no fire truck and no hoses. In March 1900, businessmen called a mass meeting to discuss fire protection and soon thereafter a bond was passed that allowed the city to buy its first fire engine and equipment.

With the beginning of the 20th century, only twelve years after its beginning, the census showed the town had grown to 2,638 residents. By 1910, the population had shot to over 3,900. This trend slowed and then reversed itself by 1920. It was during the booming years that the young Walt Disney moved to town with his family in 1906. After only four years, with a lifetime of memories collected, Walt's family moved to Kansas City. Later he would model Main Street U.S.A. in Disneyland after those memories.

The first Post Office, built in 1888, was located on E. California Avenue. It was moved five times until 1936, when E. Ritchie Street became the permanent location. In September 1968, Marceline was chosen to host the first issue of the Walt Disney Stamp. A parade was scheduled with Mrs. Disney, her daughters and their families, and Roy Disney and his family taking part.

On May 21, 1917 the Andrew Carnegie Foundation notified the City Council that \$12,500 would be allocated to the city for a public library. In February 1919, an architect was chosen and ground was broken for the structure in 1920. A book drive throughout the area was conducted and 744 books were obtained and on November 1, 1920 the library was opened to the public. Marceline is the smallest community to have a Carnegie Library.

The early 1920s saw considerable development in the city. Dr. Ola Putman announced his proposal for a new \$25,000 hospital April 21, 1922; businessmen on Main Street collected donations to put street lights in the downtown district; the Masonic Temple was constructed, and in February 1924, dedicated.

Marceline pulled together during World War I and held together after the stock market crash in 1929.

Walsworth Brothers, a partnership of Don, Bill and Ed Walsworth, began in 1937 and flourished during this time period. The Marceline Industrial Development Corporation (IDC) was formed in 1946, bringing in additional industry. In the late 1940s the IDC enticed the Moore Company to move to Marceline. Originally a Kansas City firm, the company moved to this city in 1947, initially offering employment to 50 people. The company manufactures industrial fans and louvers. During the late 1940s and the 1950s, Marceline grew into an industrial center for north Missouri.

After World War II great strides in civic progress were made. In 1953 the first city manager was appointed, replacing the original mayor and alderman system.

The IDC also assisted Hurtt Fabricating, a structural steel firm, and Cimarron Lumber Company, a screen door and window manufacturer, locate in Marceline. Later it oversaw construction of an industrial building in southeast Marceline to be used to attract more industry.

Marceline's relationship with Walt Disney was reopened in 1956 when the city named its new swimming pool and recreation center after him. For the first time since 1910, when they left Marceline with their family, Walt and Roy Disney returned to the city to dedicate the new recreation facilities adjacent to the Country Club Lake.

In 1959 the Marceline Board of Education decided to build a new elementary school building, the construction of which in 1960 led to Disney's next visit to Marceline. The school board named the school for Walt Disney. Disney showed his gratitude by sending an artist from his studio to decorate the building. Famous Disney cartoon characters were drawn. Today they are still on display in the gymnasium and in the entrance hallway. Disney also donated playground equipment and a flag pole that had flown flags at Squaw Valley during the Olympic Games. He also gave the school a Disneyland flag to fly. Walt Disney Elementary is the only place authorized to fly this flag outside of Disneyland. Disney returned to Marceline October 13, 1960 to dedicate the new school building.

With tourism thriving from the revitalization of Walt Disney, the Santa Fe Railroad continues to this day to be vital to the Marceline area as a major employment center.

Walsworth Publishing is the largest employer with over 1400 employees. Since taking over as president and C.E.O., Don Walsworth and his son Don Walsworth Jr. have upgraded their pre-press and printing plants to one of the most modern facilities in the world. Because of their modernization, several smaller binderies and publishing companies have located in Marceline, either to work with them, or compete, thus making Marceline the "Publishing Mecca of the Midwest".

In addition The Moore Company, Hurtt Fabricating and Power Process and Industrial are strong and vital employers doing business on a national and international basis. Currently not a single building on Marceline's main street is empty.

Community Attractions and Events

Walt Disney Hometown Museum

120 E. Santa Fe Street (660) 376-3343 email: waltdisneymuseum@att.net Website: www.waltdisneymuseum.org

Walt first came to Marceline by train when he was five years old. The Santa Fe train arrived at the depot that preceded the present-day one, which was rebuilt in 1913. When Walt returned to Marceline for the first time in 1946, the depot evoked his first memories of pulling into Marceline. So it is fitting that the museum dedicated to one of the most influential persons of the last century is housed in this restored Santa Fe Depot.

Our mission:

Ensuring that that the world will never forget that Walt Disney was a simple farm boy from Marceline who grew up to become the keeper of childhood magic.

The Walt Disney Hometown museum is the recipient of a unique collection of family effects, never seen anywhere else in the world. Here are just a few features visitors to the museum are treated to:

- Interpretive exhibits that focus on the Disney family and tell the story of Walt's childhood, family, friends and associates who supported him in his creative adventures
- Hundreds of personal letters written between family members
- The only ride ever to leave and be operated outside of Disneyland
- Artifacts, effects & personal belongings from Disney family members

Walt Disney's Hometown Museum is quickly becoming regarded as the place to get closest to the man who has influenced so many of us personally. While perusing this special museum, you'll feel transported to a simpler time and unlike the hustle and bustle of the Disney Theme Parks, you'll feel closeness and get an intimate understanding of Walt Disney and his amazing life history & family.

And the Museum isn't all. So much history of Walt is throughout the town. After you've seen the museum, you'll want to visit the Dreaming Tree and Walt's Happy Place at the old family farm, spend some time in Ripley Park, take a stroll around the lake at the Walt Disney Park Complex and watch the sun set, go antiquing down Main Street USA or just sit and watch the trains go by just outside the Museum or from a viewing window in the baggage room (we guarantee you won't have to wait long with more than 70 trains passing through Marceline each day). We also offer several special tours. Whether you are a die-hard Disney fan, love the Disney Parks & Movies or just want to know more about Walt Disney, we want you as part of our family.

Disney Attractions

Walt Disney Hometown Museum 120 W Santa Fe (660) 376-3343 www.WaltDisneyMuseum.org Visit the Walt Disney Hometown Museum to view our interpretive exhibits telling the Disney family story focusing on Walt's childhood in Marceline. Our unique collection of family artifacts is found

in Marceline. Our unique collection of family artifacts is found nowhere else in the world. Gift Shop on premise. Open April 1-Oct 31. Closed Mondays, admission charged.

Disney Farm 200 W. Broadway Street (660) 376-3343 You are welcome to visit the Disney farm but please be respectful as it is private property. The Disney home is not open to the public.

The Dreaming Tree

Though worn by time, the large cottonwood tree trunk still stands where Walt and his sister Ruth played. Daydreaming under its branches a young Walt would observe the whole of nature surrounding him. Calling these adventures "belly botany," Walt drew from these memories for his Mickey Mouse and Silly Symphony cartoons. In 2004 Walt's grandson planted a sapling grown from a seed from the Dreaming Tree close to the original. "Son of Dreaming Tree" grows proudly on the Disney Farm. Open daily sunrise to sunset.

Walt's Barn

The barn in Marceline was the setting for Walt's first venture as a showman. He dressed some of his pets and farm animals in costumes and announced the "Disney Circus" to neighborhood kids charging 10 cents for admission. His audience left unimpressed and Walt's mother made him refund the admission fees. Walt learned a valuable lesson: "Give the audience more than they expect and they'll be happy customers." Walt's barn came home again in 2001 during a 3 day old-fashioned barn raising. Guests from all over the world have left their message to Walt on the interior walls of the barn. Open daily sunrise to sunset.

Disney Farm Arboretum

In 2002, a Disney Farm tradition began when ToonFest Headliners planted the arboretum's first trees. Donated by American Forest Historic Tree Nursery, the trees come from historic properties all over the world and have a tie to Disney. For example, Walt was an admirer of Abraham Lincoln and there are trees from Lincoln's property. Open daily sunrise to sunset. Walt Disney United States Post Office Building 120 E. Ritchie Street (660) 376-3300

Following Walt Disney's death in 1966, the citizens of Marceline lobbied the US Postal Service to issue a commemorative stamp in his honor. The stamp was issued from Marceline, October 16, 1968. In 2003, the Marceline US Post Office building was renamed the Walt Disney Post Office Building, making it the only federal building named for Walt Disney.

Stop by the post office and have your letter hand cancelled with Marceline's one-of-a-kind Disney cancellation.

Walt Disney Elementary School 420 E. California (660) 376-2166 In 1960 Walt Disney cancelled an around-the-world trip to attend the dedication of Walt Disney Elementary School. Speaking at the dedication, Walt commented, "You know I'm not a funny guy, I'm just a farm boy from Marceline who hides behind a duck and a mouse."

Walt directed the Disney studios to produce a unique mural for the school interior. He also furnished a flag pole from the Squaw Valley Olympics and two special Disney flags.

Walt Disney Complex, Swimming Pool 700 S. Kansas (660) 376-3528 (City Hall)

In 1956, the year after Disneyland opened, Walt and Roy Disney returned with their wives to Marceline to dedicate the Walt Disney swimming pool. The brothers relished the chance to visit old friends and relive memories. At the dedication, Walt told the children of Marceline: "My best memories are the years I spent here. You children are lucky to live here." Open Memorial Day–Labor Day, admission charged.

Walt Disney Complex, Santa Fe Lake 700 S. Kansas (660) 376-3528 (City Hall) Built in 1912 as a private club, the lake is now owned by the city. The lake and grounds are open to the public and feature a picnic area, playground and fishing.

North Missouri Arts Council (NOMO)

111 S Main Street USA Located on Main Street USA, this charming gallery hosts several new shows each year featuring regional and nationally known artists. Shows include watercolor, oil, pastels, photography, fiber and ceramics.

Magnolia Antiques and Tourist Center

209 N. Main Street USA(660) 376-2332In the heart of downtown Marceline since 1990, Magnolia Antiques offers 5,000 square feet of antiques, collectibles, memorabilia and useful items of all kinds. Need area information? Give us a call.

Marceline Carnegie Library

119 E. California(660) 376-3223www.marcelinelibrary.orgBuilt in 1920 and one of only 22 Carnegie libraries still in existence in Missouri, this small charmer housesapproximately 25,000 volumes, a significant genealogical collection and original art depicting Marceline's past.

Marceline Chamber of Commerce

209 N Main Street USA (660 376-3347 www.marceline.com Marceline's business community invites you to visit Downtown Marceline. We are proud to be a charter member of the Missouri Highway 36 Heritage Alliance and a new member of Missouri Main Street Connection and National Trust for Historic Preservation.

Marceline Golf Club

32812 Key Drive (660) 376-3174 Nine-hole golf course stretching over 80 acres with beautiful fairways, three ponds, and both men's and lady's tees. This course is one of the best nine-hole courses in the area. Pro shop is open from March 1-October 31. Green fees are \$15 for an eighteen-hole round of golf. Cart rental is also available.

Circle O Lodge and Tree Farm

29783 Morton Rd(972) 527-2801Situated on 60 acres of mixed terrain and featuring hardwood forests, open grasslands and a 2.5 acre fishing pond, the Circle O Lodge is a rustic but modern family lodge perfect for families and small groups.

ToonFest

ToonFest will be celebrating its 17th year. From the humble beginnings with a cartoonist drawing in the park as a few curious locals walked by... today the event attracts visitors from all over the world. Annually A-List celebrities headline the event in support of Disney. Not only does the public have the opportunity to participate in a full day of activities in E.P. Ripley Park, but also to enjoy the Cartoonist Symposiums at the historic Uptown Theatre and the International Cartoon show at the Masonic Temple. The day kicks off with a parade that features bands, floats, Princesses, Pirates, Grand Marshalls, and more. It continues with live entertainment, craft booths, great food, and fun for the whole family. ToonFest is truly a wonderful celebration that should not be missed. ToonFest draws in thousands adding to the rich tourism of this area and bringing revenue to the city that supports the local economy.

Community Interviews

1. Local Retail:

Organization sees a need for hotel accommodations for weddings, funerals, graduations and family events at least monthly. Respondent also cited the 10-12 large special events hosted in the community each year plus the visitors to the Disney Museum. Respondent indicted that people currently use the Brookfield option to meet overnight needs. Respondent sees an unmet need with meeting/banquet space for groups from 50 -150 or 20 or less as the community center is not a good fit in these areas. No practical conference/meeting space in the market. Respondent mentioned the need for a quality restaurant for dinners and the need for a weekend brunch. Respondent also cited the large hunting population with people coming to the area from all over the country. Respondent rates location at the maximum importance of 10 while rating brand at a 5 indicating that the community has a great need for any accommodations that are good quality and clean. Respondent rated the current Marceline option at 2-3 and the other markets at 9. Respondent added that a new hotel would be a great asset to the community for those who travel to the community for funerals, weddings, family reunions and holidays. Respondent feels that amenities like a pool would be important to attract guests traveling with smaller children etc. Respondent reiterated the large number of special events hosted in the community with 10-12 weekends per year; alumni, ToonFest, Railroad, and Gun show. Respondent added that the community hosts a very large 4th of July celebration with a week-long carnival that many families use for family reunions etc. Respondent indicated that they feel the hotel would be booked completely during the large events each month.

2. Local Tourism:

Organization has need for hotel accommodations for a large number of events each year including 6-7 large shows (craft, gun, train etc.) with 200-300 people for 1-2 nights as well as 15-20 wedding receptions each year. Currently the organization sends visitors to Brookfield until the hotel is filled and then to Macon. Respondent added that the organization is limited to one day shows at this point since there are no hotel accommodations in Marceline. Respondent indicated that a quality restaurant would be a great asset for Marceline and that the community currently has issues with the municipal pool. Respondent indicated that a partnership to accommodate hotel guests and community members at a hotel pool could allow people to work together to meet the need. Organization is currently using the Marceline, Brookfield and Macon options. The organization offers meeting/banquet space with kitchen appliances etc. with a room to hold up to 50 people and another room (gym) to hold up to 600. Respondent rated location important at an 8 while rating brand lower at a 5 and adding that a good, clean hotel would be an asset but it doesn't need to be a Hilton. Respondent rates the current Marceline option a 3 while rating the Brookfield and Macon options a 4-5. The organization does reserve blocks of rooms for events at a reduced rate. Respondent sees the addition of a hotel as an asset and a way to bring business back to town with visitors purchasing their gas, groceries and food in Marceline and supporting the local merchants. Respondent reiterated that the organization's ability to host events is currently restricted to one day events due to lack of accommodations. Respondent looks forward to the development materializing as respondent is retiring very soon and plans to spend more time attracting events to the organization. Respondent added that organization recently applied for a MO Health Foundation Grant that will allow the organization to serve a 30 mile radius to bring awareness of health issues which will increase traffic to the area.

3. Local Financial Institution:

Organization has need for accommodations twice per year, one time including 2 people for 3-4 nights and the other 12-15 people for one week. (12-15 may be on 18 month cycle depending on performance) Respondent sees a great need for a good evening restaurant to enhance the community and keep dollars in the community. Respondent indicated a concern that even with a quality hotel visitors may continue to stay in Brookfield or Macon due to better restaurant choices. Respondent currently uses hotel accommodations in Brookfield and Macon to meet needs. Respondent sees a need for meeting space with technology for 50-100 people. Perhaps a split room scenario would be beneficial. The community center offers the gym for large groups and a small space option but nothing in between. Location ranks important at 7 while brand does not seem to be a concern at a 5 or lower. Respondent indicated that a clean, quality hotel would be well received with any flag. Respondent rated the current Marceline option low at a 3 while indicating that the Brookfield and Macon options rank at a 6-7 and meet the current needs. Respondent does not have a corporate rate. Respondent feels that a new hotel would be an asset for the community and a positive if it can remain solvent. Respondent sees a definite need for a hotel in the community as long as the demand is consistent enough to make the facility profitable. Respondent reiterated the need for a quality restaurant.

4. Local Financial Institution:

Organization has need for accommodations twice per year. One time per year: 2 people for 3-4 nights and 3-4 people for one week. (3-4 may be on 18 month schedules depending on performance) Organization brings in employees from other communities for training several times per year for 1-2 nights. Respondent reiterated community need for hotel spaces with special events 10-12 times per year with gun show, model train show, alumni weekend, ToonFest etc. Respondent indicated that there is a real need for a quality restaurant in the community and indicated that the organization uses accommodations in Brookfield, Macon and Chillicothe to meet needs. Respondent indicated that a need exists for meeting space for 50-100 with catering opportunities. Respondent also mentioned that the community currently misses out on the opportunity to host Missouri Bankers Association meetings or Farm Service Agency meetings due to the lack of hotel accommodations. Respondent ranked location very high at a 9 adding that locating the facility near the 36/5 junction would increase visibility and draw people from the 4-lane highway. Respondent reiterated that 4-lane US Highway 36 is carrying a lot more traffic now due to the issues with Interstate 70 and that it will continue to increase as work begins on I70. Respondent feels that locating the hotel too close to town will cause a loss of traffic from the highway if people had to drive 2-3 miles. Respondent felt like brand was not as important rating it a 6-7 and added that it could be a "mom & pop" if it was clean and nice. Respondent rated the current Marceline option at a 3-4 and the outside market options in Brookfield and Macon at 7-8. The organization does not have a corporate rate. Respondent feels a new hotel would be a great asset to the community and would give people an option to stay in the community when attending events etc. and keep that money for overnight stays, food and shopping in the local economy.

5. Local Commercial Business:

Respondent often has potential guests that inquire for overnight lodging which the organization does not offer. Respondent added local businesses are sorely lacking accommodation for the vendors that service their accounts and have to spend the night. Respondent's guests need for accommodations range between 3 days to 2 weeks. Respondent added, given the fact that Marceline has a substandard municipal pool a hotel with pool would be a benefit to families visiting Marceline with small children. Other amenities should include business center, meeting rooms, and Audio/Video and conferencing system, restaurant that could serve not only the guests but community as well. A workout facility is a plus but only if it is properly outfitted and has more than one machine for each type of exercise. Respondent personally uses Marriott, Hyatt, Hilton, Marriott Spring Hill, and Hampton Inn for business travel and does not like Econo Lodge. Banquet space

and meeting space is a requisite. A banquet room would offer the prospects for wedding receptions etc. and not be so dependent not he community center which is very nice but has the appearance of HS gym. Respondent rates location high at a 10 while brand rates at a 5 based on the market. Respondent rates the current Marceline option at zero and added that there is no quality hotel in the market while adding that the Brookfield option rates a 5 at best. Respondent does see a hotel as a tremendous asset to the community. Currently the community has approximately 12,000 visitors annually to the local museum that come from as far away as China and Europe. Once they visit the museum it is adios because the community lacks restaurant and hotel accommodations. A considerable number of that population would overnight in Marceline, pay their accommodation, maybe have a meal there, and spend money in the community. In addition the hotel would attract business people coming to Marceline to call on local industry, and with the work that will be taking place on Interstate 70, that traffic will be routed to Historic Highway36 hence more traffic. If you ever travel 36 from west to east you will appreciate a hotel in Marceline because that stretch just covered is very tedious!

6. Local Health Care Provider:

Organization has need for accommodations for business related visits 15-20 times per year with average stays from 1-2 nights typically. Respondent indicted that the quality of the hotel is more important than amenities adding that a pool is not important for business travelers but added that brand may be important as it sets a certain expectation for visitors where a local unknown hotel/motel causes visitors to be hesitant. Respondent indicated that the organization uses the local Marceline option sometimes but that some people have a preference to stay in Macon. Organization rarely has need for meeting space but needs to accommodate 10-15 from time to time. Respondent rates location high at a 7 and rates brand at the maximum 10 reiterating that brand brings a certain expectation. Respondent rates the current Marceline option at a 5 while the Macon option rates an 8. Respondent does not have a corporate rate. Respondent indicated a new hotel would absolutely be an asset to the community and provide some needed competition to raise the quality of the accommodations. A hotel would attract more visitors for events like ToonFest, Train Show and other regional activities. Community is currently losing people and money to other communities due to a lack of competitive accommodations. Respondent added that the hotel would also provide needed job creation. Respondent feels the hotel should be located near the 36/5 junction as there is currently nothing at the exit and nothing to draw people to the community. No one knows there is a town off that exit. The hotel may also spur additional development in the area near the intersection.

7. Local Public Administrator:

Organization has need for accommodations several times per year for multiple events, tournaments and award ceremonies with the average stay 2-3 nights. Respondent also mentioned the option to host state meetings if the community offered hotel accommodations. Organization is currently using an option in Brookfield to meet needs but does not have a corporate rate. Organization has no need for meeting space. Respondent ranks location at an 8 responding that location is a "big deal" while brand ranks at 5 and does not matter as the community needs an option. Respondent rates the current Marceline option at a 1 while rating the current Brookfield market at a 6. Respondent added that a hotel near the 36/5 junction could also lead to additional development like a convenience store, truck stop and truck wash. Respondent indicated that many people are changing their travel patterns to include Highway 36 more than I70 and indicated that a family member who is a truck driver has confirmed that shift in his industry. Respondent feels the timing is right for a hotel development and it would be a great benefit to both the community and the development.

8. Local Industry:

Organization does have need for accommodations for customers and vendors six times per year for a 1-2 night stay. Amenities are not as important as clean, quality and price. Organization is currently using the Brookfield option. Organization has need for meeting space to accommodate over 120 people 1 time per year and uses the community center. Respondent rates location as a 7 indicating that visitors would support a new Marceline option over Brookfield if it was available and if the community also had better restaurants. Respondent rates brand at 5 indicating that the main thing is that the hotel have a brand. Hilton or Best Western, it doesn't really matter but a brand allows for certain expectations. Respondent rates the current Marceline option at 3 while Brookfield a 7 and the organization does not have a corporate rate. Respondent feels a new hotel would be an asset to the community but that doesn't mean the community can sustain the hotel. The new hotel would be neutral for the organization but more convenient to other businesses. Respondent added that the Marceline hotel would be less convenient to restaurants in other markets.

9. Local Tourism:

Organization has need for accommodations for several events throughout the year including the Paint Marceline event which brings in artists from across the country and offers the largest single day payout in the Midwest with most guests staying 1-2 nights. Respondent indicated that a business center would be an important amenity in the new hotel as well as conference/meeting rooms. ToonFest, National Cartoon Convention, Train Heritage Show and Historical group need meeting space with perhaps a split room that could hold from 50-100. Organization currently uses the Marceline, Brookfield, Macon and Chillicothe options to meet overnight needs. Respondent rated location at the maximum 10 while also rating brand high at a 7-8 indicating that in Respondent's own personal travel brand doesn't matter but when traveling for business it makes a difference on cleanliness etc. Respondent rated the Marceline option at a 3 while rating outside options at 8. Respondent feels a new hotel would be an asset to the community and help to pull traffic from Highway 36 to town. The hotel would be an important part of the future growth of the community.

10. Local Industry:

Organization has need for accommodations with 4-6 rooms per week resulting in 1-2 night stays. Respondent indicated that organization has no need for meeting/banquet space as they have meeting space and a dining hall on site. Organization is currently using the Brookfield option to meet the need for accommodations and respondent did not have an opinion on hotel amenities. Respondent rated location high at an 8 while also rating brand high at the maximum 10 indicating that it is important for the community to have a quality hotel. Respondent did not rate the current Marceline option as they do not use the facility at all but did indicate that the organization is satisfied with the Brookfield option. Respondent was not entirely sure but felt like the organization did have a corporate rate. Respondent believes a new hotel would be an asset to the commuting by adding new jobs and indicated that a quality hotel would have use.

11. Local Tourism/Local Retail (2 Respondents):

Organization receives 12,000 visitors per year. The museum facility is open 7 months of the year and in 2014 welcomed visitors from 49 states and 13 countries. The facility is the only Museum listed on the official MODOT Missouri Highway Map. The Organization is in the process of hiring for a development position that will concentrate on attracting more events and visitors as well as fundraising. Respondents indicated that the community offers quality sports complexes that could host multiple tournaments per year if a local hotel was developed. Respondents discussed the annual 4th of July event which brings hundreds of visitors to the community and includes a 7 day carnival; many community members also combine the community celebration with family reunions etc. Respondent indicates that the community hosts 10-12 large community

events each year which require overnight stays and bring thousands of people to the community for 2-3 nights and that local organizations are kept from expanding tourism events due to the lack of hotel accommodations. One of these events, ToonFest, includes A-list Artists from around the world who come to the boyhood home of Walt Disney to give demonstrations and host informational seminars. The event includes a full day of family activities including outstanding music, great food, crafts and exhibits of all kinds. Currently the community is featured as a part of the Highway 36, The Way of the American Genius marketing efforts as well including the Missouri Highway 36 Official Visitors Guide. The community is also home to a quality quilt shop and is centrally located on the Quilting Trail through Missouri which includes 15 shops in 14 communities. The community currently hosts 6-10 Bus Tours per year but once again is limited in its ability to increase that number by the lack of hotel accommodations Respondents added that the only hotel option to host tour busses is the Chillicothe option as even the Brookfield option has less than the requisite 52 rooms to support busses. Respondents indicated that a new restaurant is a huge need as well as meeting space for 50-100 that includes technology. The community's location is near the center of the state on Highway 36 and Respondents feel this location combined with conference/meeting space would allow for additional state meetings to be hosted in the community. Respondents indicated that the community currently uses the Marceline, Brookfield, Macon and Chillicothe options to meet the need for the community events and reiterated that events could increase if hotel accommodations were available. Respondents indicated that location is important raking at 7 and brand was important as well as it provides security for visitors with certain expectations. Respondents believe it would be helpful of the proposed hotel had the "feel" of Marceline holding to the Disney or Railroad culture of the community. Respondents indicated that the community is working on a possible Amtrak stop. Currently people arrive by Amtrak in LaPlata, rent a car and travel to Marceline. Respondents rated the Marceline option as a 2 but did indicate that the current owners have remodeled, added new bedding and transformed to a non-smoking facility. Respondents also rated the Brookfield option at 8 adding that people seem to comment positively about the breakfast and rated the Macon/Chillicothe options at the maximum 10. Respondents added that many visitors like the "local feel" and during ToonFest they offer a corporate rate at the Marceline option. Respondents feel a new hotel would be a big asset for the community and offer the opportunity for more tourism while spurring additional development. Respondents added that the community is working to transform the former hospital to a VA Home. If this occurs, the community will host numerous visitors each year as family and friends visit residents.

12. Local Public Administrator:

Organization has occasional need for overnight accommodations and could benefit from the use of conference facilities for 50-100 people. Respondent sees a need for a restaurant as well. Organization is currently using the Marceline option to meet needs. Respondent rates location very high at a 9 while rating the current options in the market at a 5. Respondent sees a potential hotel development as an asset for the community and is aware that several larger industries in the City fly in clientele and put them up in hotels not in Marceline, therefore losing potential revenue. In addition, a hotel would enhance the tourism industry, allowing for visitors to stay longer and spend money in the community.

13. Local Commercial Business:

Organization has need for accommodations for vendors 6-12 times per year with 1-2 night stays. Respondent also mentioned the need for accommodations for numerous agency people like Community Development Block Grant, USDA, SBA and EDA working with their organization on construction projects in the area. Respondent also mentioned the need to accommodate overnight stays for school events, traveling softball/baseball/ teams, hunters and fishing tournaments. Respondent indicated that numerous baseball and softball tournaments are held in the community with 25-35 teams traveling to the community to compete.

Respondent also mentioned that a quality restaurant is a necessity for the community. Respondent is currently using the Marceline option as well as the Brookfield option to meet the needs. Respondent sees a need for conference/banquet space for 50-100 people. Respondent also mentioned that the organization routinely offers its meeting space for local meetings as there is not a real good place for meetings in the community. Respondent also mentioned that some of the other meeting space requires participants to meet someone to access a key to the facility as people are not regularly on site to assist. Respondent rates location high at 8 citing the importance of convenience when making a decision on hotel accommodations. Respondent rated brand high at a 7 and mentioned that a brand affiliation allows for certain expectations for customers. Respondent rated the local option at a 5 indicating that the facility has traditionally been very clean/nice but a bit dated while rating the outside market options at a 7. Respondent added that camp sites are a need in the area as well and felt that a hotel that might also offer RV sites with hookups for nightly rent would be of value to the area. Respondent feels a new hotel would be an asset to the community and help pull traffic from Highway 36 into the community. Respondent also mentioned that a larger local option would allow more ball teams and other guests to have an option to stay overnight in the community rather than traveling to surrounding communities.

Lodging Rate and Supply

| Existing Hotel | Occupancy | & Rates by | Competitor | | | | | | | | | |
|---|------------|------------|------------|--------------|----------------------|--|--|--|--|--|--|--|
| Competing Property: | | Rate Info | rmation: | | Average | | | | | | | |

| Total Available Rooms: | | | | | 289 | | | | | | | |

ADR listed above may include some discounting from social/leisure/group rates that may be discounted on weekends for special events or group rates for 10 or more rooms utilized. However, with a high level of corporate/commercial demand the ADR in the market remains strong. The market includes a strong tourism base as compared to similar size markets regionally and nationally. Based on local interviews, it is clear that unaccommodated lodging demand exists in the local market due to a lack of adequate lodging options.

A new hotel in the market that would exceed the current status of the six closest existing competitors and include the desired amenities could recognize a higher ADR similar to options now being regularly utilized in the Brookfield, Macon, and Chillicothe, MO markets. A number of respondents indicated the importance of location and their desire to house guests in the Marceline market given an acceptable new alternative.

Marceline Area (Expanded Market) Hotel Trend Analysis

STR Marceline Area Market Hotel Trend Analysis

Methodology

While virtually every chain in the United States provides STR with data on almost all of their properties, there are still some hotels that don't submit data.

Every year we examine guidebook listings and hotel directories for information on hotels that don't provide us with data. We don't stop there. We call each hotel in our database every year to obtain "published" rates for multiple categories. Based on this information we group all hotels - those that report data and those that don't - into groupings based off of price level and geographic proximity. We then estimate the non-respondents based off of nearby hotels with similar price levels.

Similarly, we sometimes obtain monthly data from a property, but not daily data. We use a similar process. We take the monthly data that the property has provided, and distribute it to the individual days based on the revenue and demand distribution patterns of similar hotels in the same location.

We believe it imperative to perform this analysis in order to provide interested parties with our best estimate of total lodging demand and room revenue on their areas of interest. Armed with this information a more informed decision can be made.

Glossary

ADR (Average Daily Rate)

Room revenue divided by rooms sold, displayed as the average rental rate for a single room.

Affiliation Date

Date the property affiliated with current chain/flag

Census (Properties and Rooms)

The number of properties and rooms that exist within the selected property set or segment.

Change in Rooms

Indicator of whether or not an individual hotel has added or removed rooms from their inventory.

Exchange Rate

The factor used to convert revenue from U.S. Dollars to the local currency. The exchange rate data is obtained from Oanda.com. Any aggregated number in the report (YTD, Running 3 month, Running 12 month) uses the exchange rate of each relative month when calculating the data.

Extended Historical Trend

Data on selected properties or segments starting in 2000.

Demand (Rooms Sold)

The number of rooms sold (excludes complimentary rooms).

Full Historical Trend

Data on selected properties or segments starting in 1987.

Occupancy

Rooms sold divided by rooms available. Occupancy is always displayed as a percentage of rooms occupied.

Open Date

Date the property opened as a lodging establishment.

Percent Change

Amount of growth, up, flat, or down from the same period last year (month, ytd, three months, twelve months). Calculated as ((TY-LY)/LY) * "100".

Revenue (Room Revenue)

Total room revenue generated from the sale or rental of rooms.

RevPAR (Revenue Per Available Room) Room revenue divided by rooms available

Sample % (Rooms)

The % of rooms from which STR receives data. Calculated as (Sample Rooms/Census Rooms) * "100".

Standard Historical Trend

Data on selected properties or segments starting in 2005.

STR Code

Smith Travel Research's proprietary numbering system. Each hotel in the lodging census has a unique STR code.

Supply (Rooms Available)

The number of rooms times the number of days in the period.

Twelve Month Moving Average

The value of any given month is computed by taking the value of that month and the values of the eleven preceding months, adding them together and dividing by twelve.

Year to Date

Average or sum of values starting January 1 of the given year.

Marceline Local Competitors

The Lamplighter – Marceline

101 W Ira St, Marceline, MO 64658 Number of rooms: 13

Best Western – Brookfield 28622 Highway 11, Brookfield, MO 64628 Number of rooms: 31

Travelier – Macon 201 E. Briggs Dr. - Jct. Hwy 36 & 63 Macon, Missouri Number of rooms: 38

Super 8 – Macon 203 East Briggs Road, Jct Hwy 36 and 63 Macon, MO Number of rooms: 59

Comfort Inn and Suites – Macon 1821 Missouri Highway 63 North Macon, MO 63552 Number of rooms: 62

Recommendations

After extensive research it is GSG's conclusion that a hotel project would be ideally located at the intersection of Highway 5 and Old Airport Road (site A). This site has all needed utilities, offers the best visibility, and would provide the best ROI (return on investment). Review of demographics and community interviews suggest that a mid-level hotel would be ideal and provide the amenities to meet the communities' needs. This type of hotel would be well received and provide a new tier to effectively draw guests back to Marceline from the nearby Chillicothe, Brookfield, and Macon, Mo markets.

The community, as well as surrounding smaller communities in the region, offer a number of hotel demand generators including tourism, industry, and pass through travel. Nearly every local entity interviewed is regularly sending overnight guests out of the Marceline market. A new hotel development would assist the City, local merchants and restaurateurs with recapturing lost hotel stays and subsequent guest spending by redirecting that economic impact back to the community. It should be noted that the Lamplighter Motel is adding 6-8 double bed rooms as well as a small conference space and fitness room. They also have plans to renovate the old Allen Hotel in early May. In light of this a smaller floor plan than originally researched is recommended.

Property Recommendations:

| Size: | 40-45 Rooms |
|------------|---|
| Amenities: | Business Center, Banquet space to accommodate >25, Hot Breakfast, Bar/Lounge area, Fitness Room, and Pool |
| Rate: | Within 25-40% of ADR average of \$74.44 (This avg. is low because of compared hotels), Recommended Rate Range: \$92-\$105 |

National brand name affiliation was important for overall perceived quality and stability while specific brand affiliation was not a major factor in decisions for the businesses interviewed. Two of the three competitors are national brands. It is recommended that a mid to upper-mid scale branded hotel be considered to suit community needs.

It is GSG's conclusion that a hotel project could be successful using the aforementioned recommendation as a starting point. GSG prepared these recommendations using the most up to date information available at the time this study was conducted and all information is assumed to be accurate. GSG assumes no liability in the accuracy of publicly available data, or the recommendation to move forward with a proposed hotel project at this site. The information contained in this report is for discussion purposes only. Potential developers and investors should rely on their own due diligence regarding the project.

Disclaimer

Thank you for the opportunity to provide this GSG Market Feasibility Study for the proposed hotel development project in Marceline, MO. This Market Study provides a demographic and economic overview of the subject area to determine the overall feasibility of a new Greenfield hotel development. The written report is provided based on research and analysis of the variables that may impact the new development project.

GSG has analyzed market conditions, economic and demographic factors, and site conditions to determine their impact on the proposed project. GSG has utilized both primary and secondary data sources that are assumed to be correct.to analyze the subject area's demand for additional rooms. Research also included local interviews with area representatives from a variety of public and private sector organizations. The Report includes primary data and input regarding the overall feasibility of the project today and analyzes the potential for future growth in demand in the subject area.

The GSG Market Feasibility Study Report addresses the estimated operating performance of the project and provides recommendations as to size and scope of the development. The Report provides owners, investors, operators and lenders with a snapshot of the overall feasibility of the project based on market conditions at the time of the survey. Future macroeconomic events affecting travel and the economy cannot be predicted and may impact the development and performance of this project. GSG makes no representations regarding the development or possible investments. Potential developers and investors should rely on their own due diligence when making investment decisions.

GSG hereby certifies that we have no undisclosed interest in the property nor is our compensation dependent upon the report's findings. As with all studies of this type, the results are based on competent management and assume no material change in the lodging industry in the immediate area from the set forth in this report. GSG has no control over construction costs or timing of construction and opening.

GSG makes no express representations or warranty that the contents of this report are accurate, reasonable or free from errors, omissions or other defects of any kind or nature. Those who rely on this report do so solely at their own risk and GSG disclaims all liability, damages or loss with respect to such reliance.

While the terms of this engagement do not require GSG to revise this report to reflect changing conditions in the market subsequent to the date of completion of our fieldwork, we are available to discuss the need to revisit the report due to changing market conditions in the future.

Please feel free to contact our office should you have any questions or comments.

Sincerely,

Car & Muny

Corey J. Mehaffy CEO
